

## HKETA Youth Forum (Networking Practicum in Small Talks Circles)

### Introduction

Hong Kong Electronics and Technologies Association (HKETA) consist of technology & business entrepreneurs and as well as young professionals. We target to develop an open technology platform and global business connectivity for the youth and encourage them to be initiative, innovative, and creative to tackle a diverse range of challenges and make contributions in a fast-moving technology environment.

In this sharing session, participants are expected to meet with our guest speaker and other professionals who provide insight sharing on current rapid change on network and information technology perspective, the challenge & opportunity of engineering field in the market, and advice on future career development for the young people.

Our guest speaker will also share with young people in the right way, how to keep abreast of latest developments of network and extend to personal & business assessments, how to develop the competency in the market and, more important is how to equip yourselves to be professional, make sustainable growth, and achievement on your personal fulfilment in the lifelong learning process.

### Our Guest Speaker

#### **Peter Lam, Managing Director of Engineering, HKT**

Peter Lam is Managing Director, Engineering of HKT. He is primarily responsible for the planning and operation of the fixed and wireless networks which support a wide range of quadruple-play telecommunications services including voice, data, broadband, interactive multimedia service, mobile and corporate customer projects in Hong Kong and overseas. Peter joined the Hong Kong Telephone Company in 1973. Over his four decades of service with the company, he held senior positions in various functions including engineering, sales, product, marketing and wholesale business.

Peter graduated with a Higher Diploma in Electronic Engineering in 1982 from the Hong Kong Polytechnic (now Hong Kong Polytechnic University), and earned a Diploma in Management For Executive Development in 1991 from the Chinese University of Hong Kong. He was the chairman of the of the Joint Utilities Policy Group (JUPG) from 2012 to 2015. He is currently the President of Fixed Network & Value Added Services Group of the Communications Association of Hong Kong (CAHK) and a member of the Telecommunications Regulatory Affairs Advisory Committee (TRAAC).
