

HKETA Youth Forum (Networking Practicum in Small Talks Circles)

Introduction

The Youth of Hong Kong Electronics and Technologies Association (HKETA) consist of technology & business entrepreneurs and as well as young professionals. We target to develop an open technology platform and global business connectivity for the youth and encourage them to be initiative, innovative, and creative to tackle a diverse range of challenges and make contributions in a fast-moving technology environment.

In this sharing session, participants are expected to meet with our guest speaker and other industry professionals who provide insight sharing on current technology investment situation and new global investment trends, the challenge & opportunity of technology start-ups in the global market, and advice on business models and developments for the young professionals and the early stage of start-ups.

Our guest speaker will also share with young professionals and start-ups how to keep abreast of latest technology market and investment perspectives, how to improve and sharpen your business pitch skill especially for fund raising.

Our Guest Speaker

Francis Wong, Executive Director of Sumitomo Corporation Equity Asia

Francis Wong is an Executive Director with Sumitomo Corporation Equity Asia (“SCEA”), the Asian private equity arm of Sumitomo Corporation, one of the largest global trading conglomerates in Japan. SCEA is responsible for direct investment in early to growth stage companies in Asia primarily in the IT and consumer sectors. Mr. Wong has more than 20 years of experience in technical, operation, and venture capital investing in China and Asia. As a member of the board of director of SCEA, he is responsible for leading the company’s investment and portfolio strategy. Prior to SCEA, Mr. Wong was an Assistant Vice President with Walden International investing in emerging technology ventures in Asia. Before joining venture capital in year 2000, he spent the entire 90s in the telecom industry working in various roles covering network services, product development, project management and business development. Mr. Wong is a professional engineer by training, with a bachelor degree in Electronic and Electrical Engineering, a Master of Science in Computer Science from The University of Manchester, UK, and his MBA from the Strathclyde Graduate School of Business, Scotland.
