

Workshop on Medical Device Regulation & Regulatory Harmonization

Ver5F

International Experts' Sharing on Updates of Medical Device Regulations and Requirements!

The life cycle of medical devices, which includes product development, manufacturing process, quality and risk management, pre-market procedures, post-market surveillance, etc., complies to different regulations and standards in various countries.

This training course offers golden opportunity for various stakeholders related to medical and healthcare device industries to keep abreast of the latest regulatory requirements, as well as to make better strategy and business planning.
